1. Gross profit

Gross profit margin declined to 14.1% in 3QCY07 compared to 22.2% in 3QCY06 mainly due to higher materials costs and the non-satisfactory performance of Kaiping plants following rapid expansion over the past two years.

2. Depreciation and amortisation

Depreciation and amortisation charges increased by US\$1.5 million or 14.7% in 3QCY07 from a year ago on new capital equipment addition.

3. Allowance for doubtful debts

Allowance for doubtful debts in 3QCY07 increased to US\$0.2 million from US\$0.1 million in 3QCY06 as new provision was made for overdue receivables.

4. Allowance for inventory obsolescence

The allowance for inventory obsolescence made in the September quarter relates to raw materials and work-in-progress which have reached its product life cycle.

5. Distribution and selling costs

The decrease in distribution and selling costs by 11.9% in 3QCY07 compared to 3QCY06 was primarily due to different shipment terms for the underlying shipments.

6. Other operating expenses

Other operating expenses recorded a 129.6% increase year-on-year to US\$0.7 million in 3QCY07 from US\$0.3 million primarily attributed to higher foreign exchange losses on weaken US\$ against the Group's other non-US denominated currencies and disposition losses on redundant equipment.

7. Income tax expenses

The Group's overall effective tax rate decreased from 9.5% in 3QCY06 to 6.6% in 3QCY07 as a result of income tax privileges on profits re-investments procured by the Group's Chinese subsidiaries.

8. Minority interests

Share of profits by minority shareholders decreased 80.1% year-on-year to US\$0.1 million compared to US\$0.5 million in 3QCY06 following the reduction of minority interests of the Group's subsidiaries in Kaiping and Nanjing.

Consolidated Balance Sheet Analysis

The Group's total assets increased by US\$8.8 million to US\$625.5 million as at 30 September 2007 from US\$616.7 million as at 30 June 2007 largely due to increased tax refundable from the Chinese tax authority and an enlarged trade receivables on higher sales revenue achieved during the September quarter.

The increase of total liabilities by US\$10.1 million to US\$298.3 million as at 30 September 2007 mainly due to higher trade payable when more raw materials were purchased to prepare for expected higher orders in the 4th quarter. Total borrowings from banks rose to US\$157.2 million as at 30 September 2007 from US\$151.4 million as at 30 June 2007 so as to fund the Group's expansion initiatives in China.

The decrease of Group shareholders' funds to US\$317.6 million as at 30 September 2007 from US\$319.7 million as at 30 June 2007 was mainly contributed by interim dividend payment and was partially offset by attributable profits for the September quarter.

Net asset value per ordinary share was computed based on issued share capital of 178,854,462 and 179,635,062 ordinary shares as at 31 December 2006 and 30 September 2007, respectively.

7. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-
(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

For the third quarter of CY2007, the Group delivered a 6.4% increase in sales revenue to US\$150.7 million from US\$141.6 million in 3QCY06. On a sequential basis, total sales revenue increased 14.3% from the prior quarter.

Revenue from the computer and peripherals segment including server printed circuit boards ("PCBs") declined by 2.5% from 3QCY06 but rose 27.4% sequentially to US\$64.2 million in 3QCY07 while revenue from the Automotive and Consumer Electronics segments continued to grow steadily to US\$35.7 million from US\$28.1 million in 3QCY06.

The Group's product mix has been improving in favour of higher layer count PCBs and High Density Interconnect ("HDI") PCBs, thereby raising its average selling prices on the back of the shift in product mix. The proportion of sales from 8-layers and above PCBs increased by 3.2% to 34.0% in 3QCY07 from 30.8% in 3QCY06 and increased by 4.7% sequentially whilst proportion of 2- to 6- layers PCB decreased to 66.0% in 3QCY07 from 69.2% in 3QCY06 and decreased by 4.7% sequentially. As a result, blended average selling prices ("ASPs") in 3QCY07 expanded by 6.7% and 4.7% compared to 3QCY06 and 2QCY07, respectively.

The overall blended gross profit margin for the quarter was 14.1% compared to 22.2% same quarter last year. The lower gross profit margin was mainly due to higher materials costs during the past one year and the non-satisfactory performance of Kaiping plants following rapid expansion over the past two years. Costs of materials on copper foils, laminates, prepreg and other precious metal have increased in the range of 5.6% to 12.4% year-over-year. Consequently, the Group's gross profit declined by US\$10.1 million to US\$21.3 million in 3QCY07 from US\$31.4 million of the same quarter last year. There was a sequential increase in gross profit of US\$1.1 million from US\$20.2 million in 2QCY07 although the key materials prices continue to trend up.

Consequent to various factors highlighted above, the Group's attributable profits to shareholders decreased by US\$8.5 million to US\$8.1 million in 3QCY07 compared to the same period last year. On the sequential front, the Group's profits for 3QCY07 represented an 18.1% increase from US\$6.8 million in 2QCY07.

In the opinion of the Directors, no item, transaction or event of material or unusual nature has occurred during the period from 1 October 2007 to the date of this report that would materially affect the results of the Company and/or the Group in the financial period in which this announcement is made.

8. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group's performance for 3QCY07 was in line with the SGXNET prospect statement released on 14 August 2007.

9. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Starting from the September quarter, the Group experienced clear growth in personal computers, especially on notebook PC. Demands for consumer electronics and automotive sectors remained positive. We believe this growth would continue for the rest of year 2007 on Christmas festival and end of year sales. With growing order backlogs across most of the product sectors, the Group's production capacities are currently fully-filled.

Meanwhile, the Group's Kaiping plants had undergone a series of restructuring exercises over the past two quarters including recruitment of new general managers and other plant managerial employees to help stabilizing and improving the overall financial performance. Other revamp actions were also in place to put the production floor in better shape. We expect Kaiping plants to show sequential improvement in due course.

The Group's China strategy continues to be affirmed in line with the growing trend of outsourcing by multi-national companies into China. The Group has started construction of the new HDI plant in Kaiping South in September 2007. This new HDI facility is expected to offer faster growth and sustain better profitability once it is fully ramp-up by end of year 2008.

In order to focus its available resources in developing the new HDI business, the Board of Directors (the "Board") has decided to dispose its entire equity interests in Elec & Eltek Electronic (Kunshan) Company Limited to the Group's ultimate holding company, Kingboard Chemical Holdings Limited. The disposition proceeds of approximate US\$8,307,530 would plough back to help fund the HDI investment without having to gear up. Full details of the proposed disposition are set out on paragraph 12 under Subsequent Events.

Although the Group remains well positioned to benefit from the favourable prevailing business momentum, our manufacturing operation in China is managing various regional challenges, such as power shortage, increase in people and overhead costs, especially on environmental protection requirements. Raw material supply is expected to remain cyclical and prices will trend upward further in the short and medium term as price of copper scaling higher.

Barring unforeseen circumstances, the Directors believe the Group would show profitable results for the December 2007 quarter.

This release may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, shifts in customer demands, customers and partners, and government and policy changes. You are cautioned not to place undue reliance on these forward looking statements which are based on current view of management on future events.

10. If no dividend has been declared/recommended, a statement to that effect.

Share Buy-Back

On 11 October 2007, the Company purchased 50,000 ordinary shares at an average price of US\$1.9508 per ordinary share pursuant to the shareholders' mandate approved by the shareholders of the Company at the extraordinary general meeting held on 12 April 2007. These shares are acquired via on-market share purchase by the Company and will be held as treasury shares, with no voting rights and dividend entitlement.

Proposed disposition of the Company's investment in Kunshan (the "Proposed Disposition")

The Board is proposing to enter into a sale and purchase agreement with Top Faith PCB (Kunshan) Co. Ltd. ("Top Faith"), a subsidiary of Kingboard Chemical Holdings Limited (the "Kingboard Group") under which Top Faith will purchase the entire equity interests held by the Company in Elec & Eltek Electronic (Kunshan) Company Limited ("EE Kunshan"), a subsidiary of the Group established with the original intention to capture the business potential in Eastern China. EE Kunshan owns land and a factory building in Kunshan which is currently under construction.

The rationale of the Proposed Disposition is to allow the Group to re-deploy its available resources in the development of the dedicated HDI plant in Kaiping South whilst strengthening the financial performance of its traditional PCB business in Kaiping site.

Notwithstanding the Proposed Disposition, the Group is working on expanding the production capacities of Nanjing Elec & Eltek Electronic Co., Ltd ("NJEE") so as to capture the business potential in Eastern China.

The indicative consideration payable for the Proposed Disposition is approximately US\$8,307,530, comprising approximately US\$3,663,706 (or equivalent RMB27,432,366) being appraised value of the transfer of equity interest by an independent reputable valuer and the repayment of progressive borrowings or RMB34,771,094 (or equivalent US\$4,643,824) taken up by the Company to fund the building construction. The indicative consideration was arrived at on a willing-seller and willing-buyer basis using the replacement cost approach. The whole transaction is expected to be completed by end of 2007.

The Board has concurred that it is in the best interests of the Group to realise the up-to-date investment in its Kunshan plant and to utilize the sale proceeds for developing the HDI business to avoid gearing up the financial liquidity of the Group. The Board has further concurred that the Proposed Disposition is undertaken on normal commercial terms consistent with the Group's usual business practices and policies. This contemplated transaction will not be prejudicial to the interests of the Group and the minority shareholders and is not expected to have any significant impact on the earnings per share nor net tangible assets per share of the Company and of the Group for the financial year ending 31 December 2007.

Pursuant to the listing rules of Singapore Exchange Securities Trading Limited, no shareholders' approval is required on the Proposed Disposition as the indicative sale consideration is of a value less than 5% of the Group's latest audited net tangible assets.
